Oregon Gator Blades

G3™

The G3 Gator blade is the best option for those looking for a replacement blade with better mulching capabilities. Designed with progressive geometry on the cutting edge for a cleaner cut and an aggressive blade angle to increase air flow for superior bagging or side discharge. Gator G3 blades help you get that professional looking cut with any mower.

G5™

The G5 mower blade is a heavier-duty version of the G3 mower blade. Featuring Fusion(TM) - an ultra-hard tungsten carbide layer - on the cutting edge, the G5 stays sharper longer, increasing the time between sharpenings or replacement.

G6™

The G6 blade is the most heavy-duty of the Oregon mower blades. Designed for commercial applications where extreme performance is a requirement. G6 is 1/4" thick and 3" wide and features Fusion technology, providing superior longevity and cut quality even in the most punishing conditions.

VORTEX TRIMMER LINE

Want Those CRISPY EDGES?

COPPERHEAD

Features & Benefits

- Less drag
- Longer wear
- Significant improvement in energy efficiency
- Up to 50% noise reduction in larger diameter lines
- Patented design
- Increased RPMs allows use of larger diameter lines
- More impact power
- Superior tensile strength
- Decreased vibration
- Twisted, Aerodynamic Design

Trimmer Line Cutter

Line cutter simple & safe to use.
Fits on key ring.
Cuts line from .056 to .130

MICHELIN® TWEEL TIRE

The Newest in Tire Innovation. Leaves a light foot print and last 10x longer than regular tires.

The MICHELIN X® TWEEL™ tires represent a significant technological advancement in the tire industry. No downtime (no flats!) The TWEEL™ airless radial tire is designed to perform like a pneumatic tire, but without the inconvenience and downtime associated with flat tires.
