

WALKER MANUFACTURING COMPANY UPPER MULCH BLADE APPLICATION LIST Effective March 2011

For some mowing conditions where Side Discharge (SD) decks are being used, it is preferable to add a second (mulch) blade above the main cutting blade. Following is a reference list for adding these blades.

DECK	STANDARD BLADE	UPPER MULCH BLADE
DSD42*	5703-3 (22")	5705-11 (22")
DSD48*	7705-1 (25")	7705-10 (25")
DSD52	5705-14 (18-1/2")	5705-15 (18-3/8")
DSD56*	5705-0 (20")	5705-18 (20")
DSD62	5705-3 (22")	5705-11 (22")
DSD74*	5705-0 (20")	5705-18 (20")

* When upper mulch blades are added to these decks a lower profile jam nut (P/N F404) can be installed for mounting security (no nut threads exposed)
