

WALKER MOWERS

ACTUATOR MOTOR UPGRADE KIT (10.0 BUSHEL CATCHER) P/N 5519-10 S/N RANGE 2009-100643 THRU 2010 104569

INSTRUCTIONS:

1. Remove old actuator motor assembly, place template in mounting pocket and drill pilot holes. Follow up with (1) 1/4" and (1) 5/8" hole as per illustration "B".
2. Feed harness wire thru existing opening and replace grommet; attach ground using existing hardware, plug connector together and place cable tie as illustrated.
3. Install diaphragm grommet in previous motor shaft hole. Install new actuator motor assembly using hardware as illustrated, reconnect linkage and adjust for proper chute movement.
4. Plug adapter harness to motor and re-install cover.

ITEM NO.	PART NO.	DESCRIPTION	QTY. REQ'D
1	5519-1	Actuator Motor (24V)	1
2	5519-4	Adapter Harness	1
3	5977-4	Diaphragm Grommet	1
4	NS	Actuator Motor Template	1
5	5975-1	Cable Tie (18# x 3 3/4")	1
F002	F002	10-24 Keps Nut	3
